

Your First Name + your SURNAME: **Kevin O'CONNOR**

Campus de l'école/School's campus: Berkendael

Classe de vos enfants/Your Children class: P3 EN

Profession/Occupation : Principal Administrator, European
Commission

- **Class Representative since 2021**
- **What are your motivations for joining the APEEE Services Board of Directors ?**

I am principally motivated by my desire to improve the operations of the APEEE Services. In particular, as a former observer of the transport committee, I understand the need to be at the top table when it comes to decision making. Given the multiple crises we face, now more than ever it is necessary that we move fast to make our services as resilient as possible. In that regard, it is imperative that we do all we can to align with the Green Deal objectives as quickly as possible. I further believe that the APEEE Services must operate as transparently and democratically as possible.

- **What is the experience/added value you can bring?**

As a very active observer of the Transport Committee in pushing for the electrification of the bus fleet, I learnt much about mobility policy in the school and the Brussels region in general. As an experienced Commission official in the field of energy and environment, I believe there are many issues which I deal with day to day which overlap with those of the APEEE Services.
